*G20	-2 Escudos 1854 JB Fr 8 Standing Indian EF, luster, above ave. strike	290.00
*G21	-1/2 Onza 1850 JB Fr 7 Standing Indian. A. UNC, Fully Lustrous except for Indian figure which is in high relief. The Indian Girl is much sharper than average with head, hand and toe details evident. Obverse National Shield is complete and bold. Edge reeding is full and bold. One miniscule reverse field mark. The FINEST KNOWN of this weakly struck 4 Escudos size gold coin known to us. Probably an early strike. Authenticated	1250.00
G22	-1 Peso 1866 GW Large "UN" Fr 15 EF+, very bold obverse . .	100.00
G23	-1 Peso 1866 GW Small "UN" Fr 15 14.2 mm Type. VF.	57.50

*G26	-2 Pesos 1876 GW Unlisted in Friedberg (Date and Type). 18.9 mm. Obverse legends and features are larger than earlier 1866-68 Type while the reverse wreath, letter size and letter positions are different. A quick checkpoint of the difference is that the wreath extends down and divides the "21Q" and "G. W." of the earlier type while it does not on the 1876 Type. EF/VF+, lustrous. VERY RARE TYPE .	650.00
*G27	-10 Pesos 1870 GW Fr 11 28.7 mm Type. VF-EF, fully struck .	450.00
*G28	-10 Pesos 1876 GW Unlisted in Friedberg (Date and Type). 27.1 mm. Size difference is easily noticeable relative to Fr 11 Type. The size and positions of the legends and letters, as well as the wreath style, are very different. The same "quick checkpoint" as is mentioned for the 2 Pesos above (Coin G26) is also true here. All known specimens of this one-year type are struck from somewhat rusty obverse dies while the reverse dies were apparently mint-polished to remove any rust. It is possible that both the 2 Pesos & 10 Pesos 1876 were struck in the 1880-1890 period when Costa Rica was considering a new gold issue. A. UNC, small edge bruise. Authenticated. V. RARE TYPE.	1250.00

* G69	URUGUAY 1870 PATTERN Set in COPPER. 1, 2, 5 Pesos and 1 Doblon. Fr 2, 3, 4, 5. Struck under the law of June 23, 1862, which declared the Doblon in gold as the national coin standard. Gutttag had the 1, 2 and 5 Peso copper patterns similar to these (his numbers 4690A-B-C) but not the Doblon. Various references state that at least a few pieces of this issue were released in gold but we were not able to verify their existence. The Pattern Doblon, the denomination thought to be excessively rare (2-3 known) in Uruguay, may be the Friedberg plate coin (based on a similar small scratch) but the photo in that reference is too poor to be certain. The Almanzar-Seppa plate coins ("The Coins of Uruguay", 1971) seem to be the same as those in Odicini Lezama (EL REGIMEN MONTETARIO DEL URUGUAY 1829-1955) and are too retouched to be useful for determining if this is the same specimen. 1 Peso is 1.19 grams, 15.9 mm diameter. 2 Pesos is 2.82 grs., 19.0 mm. 5 Pesos is 3.22 grs., 21.0 mm. Doblon is 9.43 grs., 30.1 mm. The 1, 2 & 5 Pesos are UNC or nearly so with luster. The Doblon is EF-AU with luster traces. EXTREMELY RARE as a set of 4 pieces	1500.00

ETHIOPIA: After Menelik united Ethiopia, he authorized the issue of silver dollar size coins to compete in trade with the Maria Theresia Thaler. First struck in Paris in 1894, the Ethiopian Talari (Dollar) featured Menelik's bust and the Lion of Judah. This design by LaGrange proved unpopular with the natives due to the Lion's docile pose. Consequently a new design by Chaplain was introduced in 1899 depicting a ferocious, rampant Lion and a more ornate crown on Menelik. Both designs of the Talari circulated extensively and choice specimens are RARE. Due to a very fortunate purchase, we can offer these beautiful and exotic Trade Dollars at very competitive prices:

162	-Peso	1890	E21, Y25a	VF, very bold strike	32.50

- *163 -Peso 1899 - UNLISTED AND PREVIOUSLY UNKNOWN DATE. Mintage statistics exist for other dates in this period (1897-1898) and show that very few were struck. This specimen was the subject of a letter to us dated July 19, 1974, from Holland Wallace, author of the excellent catalogue CENTRAL AMERICAN COINAGE SINCE 1821. It states in part, "This is an extremely significant coin and to the best of my knowledge it has never been published in any numismatic literature. I had never heard of the 1899 date until you obtained this specimen, which may be considered unique for the present. - There is absolutely no question that the piece is completely genuine. It is definitely machine-struck, not cast, and bears no indication of tampering with the date or any other part of the surface. In addition, all characteristics are typical of other Honduras coinage of the late 1890's: the crude overdate, the presence of die breaks, the letter "P" on the obverse (at 9 o'clock) and so forth. Such features also occur frequently on minor coinage of the period." A very important piece in a series which is relatively well-researched and known. Presumably **UNIQUE**. AVF 3000.00

VENEZUELA The following, together with our offering of Venezuelan coins in our last list (Catalogue No. 14, Sept. 18, 1974), constitute one of the most outstanding and extensive offerings of the early coins of this country in recent years. Most of the early coins of Venezuela were minted in very limited quantities and only a few specimens are extant today. Knowledgeable collectors are well aware of this and they will not pass up this opportunity to add these rare coins to their collections.
